

The FUTURE of Watauga County Habitat for Humanity

Watauga Habitat's greatest challenge has been the lack of buildable land. The recent purchase of 20.66 acres near Green Valley School will allow us to build 25+ houses over the next several years. Volunteers, prayers and financial support are needed to both complete the purchase of the land as well development of the land. Watauga Habitat has changed the lives of 20 families and children. Learn more about how you can help provide simple, decent housing for people in need.
